High Gloss Surfaces

Our Synchronicity High Gloss program raises gloss desirability by a factor of three. From an array of solid colors to attractive wood grains and intriguing patterns, our three gloss material options are each crafted with their own unique qualities, establishing multiple price points. ...but all offer exceptional durability, heat and scratch resistance, UV protection from color fade, and easy cleaning and care.

Access Success

What's better than a place for everything and everything in its place? For those who demand organization, practicality, and ease, it's all about fingertip access. It's what you need being precisely where you need it to be... convenient as a simple turn here, a quick and easy reach there.

Range Hoods

There is something about range hoods that makes them a special element in the kitchen. Their very nature gives them the ability to become a truly uncommon focal point of the room. For this reason, we continue to place uncommon emphasis on expanding our range hoods to offer new and exciting mantle designs, transitional hoods, elegant European styles, island hoods, and much more...all in sizes to accommodate nearly any space.

Kitchen shown with E-Series range hood.

Architectural Accents

Creating the height of style and design with extraordinary architectural details can mean the difference between great and incredible. Our selection of over 2,000 posts, feet, and corbels offer the discriminating homeowner classic designs, both simple and ornate...in any size, specie, or configuration.
